

Good Morning Daryal & Stephanie,

Words cannot even begin to describe just how truly grateful we are for everything you have done for us. From the beginning, we can honestly admit we were a bit sceptical about taking our chance on a company which we found online. After reading all the positive feedback on your website, we were still a bit curious because there was not one single person (or couple) who had anything negative to say at all about your company. We thought it was too good to be true!

From the first email with Stephanie, until the lights came on at the end of the night on September 12th, you guys did an amazing job! Stephanie was always on the ball, replying to my emails as quickly as I was writing them, most times within a few minutes! It became somewhat of a "routine" to wake up and check my email to see that Stephanie was enjoying the planning of our wedding just as much as we were, with her morning coffee, of course!

When it came time for our Stag & Doe, we asked our wedding party to contact Party Productions and see if Daryal was available, because the first time we met him, he seemed very confident in his work. This was definitely the case! Our Stag & Doe was a huge success. Everyone had an amazing time, thanks to the incredible music Daryal played, which kept everyone up on the dance floor all night. He really knows how to get a feel for the crowd, regardless of their age. We had such a great time, we didn't even want to leave at the end of the night!

As the wedding approached, the online planning tool proved itself to be very useful. We were able to set the schedule for the entire evening, and make changes when needed, which we did almost daily! We were able to view and listen to recommended songs for various events throughout the night, which was very helpful. We could even make online payments through the planning tool, which was very secure. Our guests were so pleased that they were able to request their favourite music online, as well as at the reception!

Our final meeting with Daryal proved to be very interesting. We reviewed the last minute details, and came up with a few extra surprises for our guests. Daryal proved himself to be very creative, as he was able to help us put our ideas together, which resulted in some great surprises. Our wedding was definitely one that our guests will never forget, thanks to Daryal!

The wedding day was everything we could have ever imagined. Daryal really went above and beyond his duties the night of our wedding. Not only was he an incredible DJ, but he also acted as our MC. He was even able to convince the bartender to keep the bar open for the head table during speeches (this is normally when the bar is closed) because he knew that there were various members of our wedding party who could use a little more "confidence" to get up and say their speeches (which was also the case with us!) Our first dance together as husband and wife was absolutely amazing. As we "danced on a cloud," our guests were in wonder and awe. This was something we had debated from the beginning, and we're so glad we decided to use the dry ice to spice up our first dance. It really makes the moment feel "extra special." Along with the extra lighting we added to our package to customize the reception hall, this was for sure a wedding that people would never forget, and exactly what we wanted!

Daryal did an awesome job following our hectic schedule for the remainder of the evening, even allowing us to make more changes during the reception. He gave us lots of notice as to what was going to happen next, so we could ensure we were prepared for it, (ie. garter toss, bouquet toss, cake cutting) and worked with our photographer to ensure she was prepared. The rest of the night ran very smoothly,

with no issues at all. Although we were both very tired by the end of the reception, Daryal was still full of energy and the dance floor was still packed. If this doesn't describe the perfect DJ at the perfect party, I don't know what does. We have received many comments from our guests who cannot believe how great Daryal was as our DJ and MC. We will definitely be passing your information along when our family and friends are looking for a DJ, and we look forward to seeing you again in the future!

Sincerely,
Jeff & Val Olds :)

PS- Please keep in mind that our wedding reception included a DJ, at no extra cost, but we wanted to make sure we had someone we could trust our special day to. Someone who could ensure our guests had an amazing time, and who was able to customize our wedding to be the one of our dreams! You definitely succeeded Daryal, and for this we are truly and forever grateful! We could never thank you enough.

****Remember, the DJ is the one person who can "make or break" the party!****
